

*Our ground level music panels are ADA accessible activities - anyone can join in the fun!*

## Harmony GROUND-LEVEL

### Features and Benefits

- A Tale of Two Timbres! The left side of this hybrid instrument is metallophone and the right side is a beautifully harmonizing marimba
- The bright, clear and sustaining timbre of the metallophone notes range from left to right as: C|B|A|G|F|E|D|C|A
- The earthy, rich and percussive timbre of the marimba notes range from left to right as: A|C|D|E|F|G|A|B|C
- This concert-quality instrument is framed with durable HDPE and backed by a cable-laced trough resonator.
- Includes 4 Inclusive Mallets, Black 80A
- HDPE face plate and clamps are available in multiple color options to coordinate with your play space
